and paying for term in full.  
This offer is not available in  
conjunction with any other offer.

***"SwimSAFER: Drowning is the major cause of accidental death in Australia for under 5's. For every drowning, many more are left with permanent brain damage. While swimming lessons are not a substitute for proper barriers and supervision, being able to swim well provides an extra layer of protection, and enhances physical, social and emotional wellbeing."*** – Ross Gage, CEO Swim Australia
